***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The present invention is directed towards a method and apparatus for authenticating the recording of digital video signals. Each independent claim identifies the distinct feature of generating an exclusive code for a fresh disk, generating coded signals commensurate with the exclusive code and mixing coded signals with digital video signals to authenticate the recording of the recorded disk. The closest prior art is Morito (US6782190) discloses the copying of copy control information onto a disk, but not the imprinting of a code exclusive only to the particular disk.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
